

NOTTINGHAM AND NOTTS FUCHSIA SOCIETY FEBRUARY 2022 NEWSLETTER

JAYNE'S JOTTINGS

Plagued with wind & rain again this month has meant that gardening opportunities have been minimal. However, this weekend, I decided to tackle my front garden. I cut back my hardy fuchsias, which I haven't done in years, rightly or wrongly, that's what I wanted to do. It has made a huge difference and hopefully, they will be all the better for having had such a radical prune! In my second border, I have a huge hydrangea and yet another hardy fuchsia (Whiteknight's Pearl) to tackle when the weather picks up!

PLEA FOR ARCHIVED INFORMATION ON THE NOTTINGHAM & NOTTS FUCHSIA SOCIETY EARLY YEARS

Data is very limited during the early years, if it wasn't for Ken Brown and his comprehensive reports, I would have nothing to report.

If anyone has any archived information (old schedules; newsletters etc) please can I obtain copies, so that I can fill in the gaps.

Thank you.

GUIDE FOR SHOW 2005

THINGS TO REMEMBER WHEN GROWING FOR SHOW

- Keep all dead wood and leaves out of the branches.
- Watch for insects and keep plants free by spraying or manually killing.
- Remember once they get a good hold the more difficult they are to eradicate.
- From early spring, treat compost for vine weevil attack – irregular notches bitten from edge of leaves. Vine weevils can be found using a torch after dark and killing them.

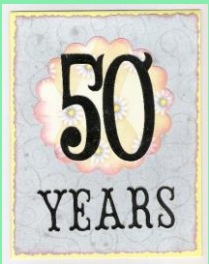

- Watch for rust, separate any infected plants; destroy any infected leaves (not in the greenhouse or in the proximity of other plants as the spores are airborne). Spray all plants with a fungicide.
- Keep the greenhouse well aerated. Plants are better outside when the weather is fit, preferably in a shady spot.
- Spots of water cause browning of buds and flowers when left in the sunshine.
- Feed regularly with a weak solution of feed.

HOW ARE WE CELEBRATING 50 YEARS

FUCHSIA TO BE NAMED TO COMMEMORATE OUR 50 YEARS – Malcolm Beerman has kindly allowed us to name one of his seedlings and after receiving suggestions from yourselves and the committee, the most popular name is: -

NOTTINGHAM JUBILEE

Thank you Malcolm and I can't wait to see it on our show bench!

INTRODUCING CELIA – Christine Cole has kindly knitted this doll, with fuchsias on her shoelaces. I want to call her Celia (after Celia Smedley) and I think she will make a great mascot for us this year.

You will see her at meetings, special events and of course at our show!

NOTICEBOARD – this noticeboard had been stored away in a shed on a Nottinghamshire allotment with a few other items which belonged to our Society. Thankfully, one of the members of the allotment association went to the trouble of contacting me to see if we wanted to retrieve anything as they were taking down the shed.

POEM OF THE MONTH

THE WIND by *Robert Louis Stevenson*

I saw you toss the kites on high,
And blow the birds about the sky;
And all around I heard you pass,
Like ladies' skirts across the grass –
O wind, a-blowing all day long,
O wind, that sings so loud a song!

I saw the different things you did,
But always you yourself you hid,
I felt you push, I heard you call,
I could not see yourself at all –
O wind, a-blowing all day long,
O wind, that sings so loud a song!

O you that are so strong and cold,
O blower, are you young or old?
Are you a beast of field and tree,
Or just a stronger child than me?
O wind, a-blowing all day long,
O wind, that sings so loud a song!

I thought this was appropriate after experiencing the extremely strong storms this week!

FUCHSIAS IN MY GARDEN

'CECILE'

Incredibly pretty, large double. It's attractive to bees and hummingbirds, half-hardy; it has deep pink-red sepals and a very full, elegantly frilled, lavender-blue corolla.

I am yet to get it onto the showbench!

(*Whitfield, 1981*)

GROWING FUCHSIAS

My main task at the moment is crossing my fingers and hoping that the next storm does not play havoc with my greenhouses. I can't see much point spending hours on them at the moment just for them to be blown away with the wind! Let's hope for calmer weather next month!

Just survived '*Storm Dudley*' – I can't wait till '*Storm Eunice*' arrives this weekend!

However, I will have to go searching to find possible plants that I can take to the BFS AGM next month. The BFS committee are kindly donating some plants so that we can hold a Plant sale, so I also think we need to contribute as well. As mentioned later, please, please, if you have any plants (not just Fuchsias) that you can donate – all will be greatly appreciated.

BRING ALONG TO NEXT MONTH'S MEETING!

PROJECT 2 - FUCHSIA BONSAI

I have been checking on the condition of my bonsai, as they are tucked away at the bottom of the garden. I am seeing signs of new growth on a few, surprisingly, so will need to ensure that I open my greenhouses regularly to let air circulate.
